

NEW  
DESIGN

# PORTABLE LADDERLINK

**SafetyLink Pty Ltd** are the inventors of the unique Energy Absorbing Eyebolt and Staticline Systems. We now have a new innovative product called the **Portable LadderLink**.

The **Portable LadderLink** is a mobile solution to ladder safety, whilst cleaning gutters, painting and general maintenance giving your ladder stability, reducing the risk of injury.

Inventors of the  
Energy Absorbing  
Eyebolt

- Constructed from lightweight aluminium.
- Protective rubber membrane eliminating damage to roof or wall surfaces.
- A unique patented design preventing sideways motion.
- No more damage to gutters .
- Enables you to stand higher on the ladder. Allowing you to step off the ladder at gutter height, eliminating unsafe climbing onto a roof.
- Able to use on a wall – easier to reach eaves, leaving you at a distance away from the wall so you can get to objects safely.
